Visakhapatnam, India | +91 9959401213 | siragarapallisailesh@gmail.com | linkedin.com/in/sailesh-siragarapalli

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1+ years of professional experience building scalable, responsive web applications using React.js, JavaScript, Python, SQL, and MongoDB. Experienced in developing production-ready frontend solutions, integrating REST APIs, and collaborating within agile teams. Proven ability to optimize application performance, enhance user experience, and deliver high-quality software solutions. Passionate about problem-solving, modern web technologies, and creating impactful digital products.

AREA OF EXPERTISE

- Full Stack Web Development
- Front-End Development (React.js)
- Responsive Web Design
- REST API Integration
- JavaScript (ES6+) Development
- Database Management (SQL & MongoDB)
- UI/UX Implementation
- Performance Optimization
- Version Control (Git & GitHub)
- Agile Software Development

PROFESSIONAL EXPERIENCE

- SR. Front-End Developer | HeyByte Technologies

Jan 2026 – Present

 - Developed and maintained responsive, high-performance web applications using React.js, JavaScript (ES6+), and modern frontend development best practices.
 - Designed and implemented reusable, scalable UI components while integrating RESTful APIs and backend services to deliver seamless, production-ready user experiences.
 - Optimized application performance and cross-browser compatibility, reducing page load times by 25% and ensuring seamless functionality across desktop, tablet, and mobile platforms.
 - Collaborated with backend developers, UI/UX designers, and QA teams in an Agile environment to deliver high-quality features, resolve issues efficiently, and meet project deadlines.
- React.js Developer | Idzigns

June 2025 – Jan 2026

 - Enhanced and preserved responsive, user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3, delivering seamless user experiences across desktop, tablet, and mobile platforms.
 - Built and enhanced reusable frontend components while integrating RESTful APIs and backend services to develop scalable, high-performance, and production-ready web solutions.
 - Collaborated with cross-functional teams, including backend developers, UI/UX designers, and QA engineers, to translate business requirements into robust and intuitive software features.
 - Improved application usability, accessibility, and responsiveness through frontend optimization techniques, boosting Lighthouse performance scores by 25% and increasing user satisfaction across devices.
- Front-End Developer Intern | Techally Labs

May 2024 – June 2024

 - Expanded and enhanced responsive frontend components using modern web technologies, ensuring seamless user experiences across multiple devices and browsers.
 - Quickly adapted to new tools, frameworks, and project requirements, enabling efficient delivery of features within tight timelines.
 - Collaborated with development teams to implement scalable and maintainable solutions, contributing to the successful execution of client projects.
 - Delivered 10+ high-quality web solutions supporting digital transformation initiatives, improving operational efficiency by 25% and increasing user engagement by 30%.

PROJECTS

Knee Osteoarthritis Prediction System

- Built a machine learning pipeline to predict knee osteoarthritis using clinical and imaging data.
- Applied feature engineering, model evaluation, and hyperparameter tuning to improve accuracy.

GAN-Based Diabetic Retinopathy Detection

- Planned a deep learning solution using GANs to augment retinal image datasets.
- Trained CNN models to improve robustness and sensitivity for early disease detection.

Personal Portfolio Website

- Developed and improved a responsive portfolio website using React.js and Tailwind CSS.
- Implemented SEO-friendly, mobile-first design and deployed via GitHub Pages.
- Showcased projects, skills, and achievements with smooth navigation and resume download support.

EDUCATION

■ B.Tech in Information Technology

Nov 2022 – May 2026

Vignan's Institute of Information Technology GPA:

- 8.0

ACHIEVEMENTS & ACTIVITIES

- Organized and conducted a workshop on AWS cloud services for college students.
- Coordinated a 24-hour hackathon, promoting innovation, teamwork, and problem-solving.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
